Subject: Protocols 473-01 and 473-02

Dear Hans,

I understand from Bernie that the work orders for protocols 473-01 and 473-02 are being circulated for signature. Once these are signed, who should I contact at Philip Morris to discuss the protocol details? As with the other studies, I will be the Project Manager on these two protocols. The two CRAs have been identified and they are available to begin work as soon as next week. We look forward to our continued relationship with Philip Morris.

Kind regards,
Aimee
